[WWW.DUALIT.COM/COFFEE](http://WWW.DUALIT.COM/COFFEE)

GB-A

### THE PERFECT ESPRESSO

Each patented capsule is individually foil-wrapped to lock in freshness for that just-roasted taste.

1. Warm cup with first shot of hot water.
2. Fully lift lever before inserting capsule.
3. Drop capsule into place and close lever.
4. Lock handle down. Press Espresso button.
5. Enjoy!

### TIPS

- Use fresh water and allow time for system to heat.
- Once capsule has been removed from foil sachet use immediately for the fullest flavour.
- Each capsule makes a shot of rich espresso. For a stronger drink use two capsules. For a longer drink serve over hot water.
- Do not reposition capsule in machine as this may prevent the capsule from being pierced.
- To release used capsule, remove cup, then fully lift and close the lever. Ensure container is emptied regularly.

NESPRESSO®\* AND  
DUALIT 3 IN 1 COMPATIBLE

### INDIAN MONSOON

Intense and smooth with indulgent  
notes of treacle & dark cocoa

A complex, intense coffee made up of three  
very different and distinctive Indian coffees to  
create a bold and unique blend.

### SUMATRA MANDHELING

Full bodied and rich with bold  
tropical fruits

A classic Indonesian with a complex intense  
profile. It is full flavoured and full bodied  
with rich texture and a persistent finish. This  
coffee has a date-like sweetness with notes of  
molasses and subtle stoned fruits.

### COLOMBIA HUILA

Vibrant and juicy with subtle notes of  
dark chocolate

This coffee has a full juicy body with medium  
sweetness throughout and subtle flavours of  
blackcurrant and black forest berries. Crisp  
balanced acidity, concentrated blackcurrant  
cordial dominates with subtle notes of plum and  
honeydew melon.

### ETHIOPIAN SIDAMO

From the birthplace of Arabica with  
complex fruit notes and floral aroma

Complex notes of bergamot, sparkling  
lemonade and manuka honey, balanced with  
walnut bitters in the finish.

## Origins Café®

— GRAND CRUS —

As a family-run company with strong values at our heart, Dualit is proud to help communities support their families.

Thank you for getting involved.

Take a trip around the world with this exceptional collection of Grand Crus coffees.

High quality beans are carefully selected and harvested from the finest coffee producing regions in the world. Each single origin coffee displays distinctive regional characteristics.

We source from groups of small coffee farmers, who are dedicated to supporting their communities and the environment upon which their livelihoods depend.

### MADE IN THE UK

Coffee beans are perfectly ground and sealed into capsules at Dualit's own coffee plant in West Sussex to ensure exceptional quality is achieved at every stage.

### COLOMBIA HUILA

— GRAND CRUS —

Sourced from an association of small coffee growers in the famous Huila region of Western Colombia. Most of their beans are grown in the shade at high altitude. Their vision is “to produce the cleanest, and most rich in flavour coffee that mankind ever tasted”.

Sourced from the birthplace of Arabica coffee, Ethiopia. The southern region of Yirgacheffe is considered to produce among the world's very top premium gourmet coffees. The cooperative union is dedicated to promoting environmental stewardship and social justice in their communities.

### ETHIOPIAN SIDAMO

— GRAND CRUS —

### INDIAN MONSOON

— GRAND CRUS —

Sourced from mostly small farms in Southern India where coffee is shade grown with other crops, encouraging biodiversity. Monsooned Malabar beans are exposed to rain-drenched winds, causing the beans to take on a unique flavour with low acidity.

### SUMATRA MANDHELING

— GRAND CRUS —

Sourced from a cooperative of small holders across diverse communities in the Gayo Highlands. Many farms are situated near the Gunung National Park, an environmentally important area that provides sanctuary to endangered species. Coffee production supports community development and conservation practices.
